

## **Spiritual music as expression of God's Breath**

God's love, truth and peace provide a glimpse into the mysteries of creation to us humans. Thus, random turns to determination, God's Word becomes living truth. Raphael Music is an expression of love, experienced with God's guidance and care.

The Holy Spirit, God's breath, will act as the real architect, composer and artist, when a man fully relies on this healing power, gets involved and asks for guidance.

Faith in God's omnipotence and greatness enables us to awaken from the dream of selfishness and loneliness.

Just as the colors of an image form an expressive composition, from holy words redemptive sounds will evolve.

God's gift to the faithful person is cleaning the mind and to strengthen his ability to love.

Music, which is inspired by a personal, intense relationship to God's living love, will create an atmosphere of joy and profound peace. Our souls will feel security and oneness in God's presence. Thus, a life on earth will be transformed into an experience of God's eternity. Trust, caring for others and patience will open the door to us to walk this way.

Willibald
