

Being aware: "God heals"

You are love, you are in me, you are joy, I will praise you!

Although we know that God is with us, promising eternal life and peace, many people turn away from God's presence. They identify themselves with their material existence and with the world. The stronger and more intense this process is being completed, the greater the sense of self and the binding power of matter. The results will be spiritual and physical poverty.

'Raphael Awareness' should give us hope, faith and confidence that we will be able to let go of the way of material attachment at any time and to realign to unity in God the Father

through the love of Christ

If unity in God is our path and goal, God's love, mercy and goodness will work in us and the result will be healing in body and spirit.

Trusting in God's grace and the continued effort to recognize and experience the love of God in all circumstances will give us joy, confidence and satisfaction.

We shall perceive God's creation as a living being and share in its unity by being conscious "God works through us".

"Behold, I am with you always, until the end of the world" (Mt 28:20)

Love is the power of this unity. It connects us and heals all wounds and will lead us to the greatest of all miracles, the presence of God.

Willibald
