

RaphaelsMusik® connects our hearts with God's presence

What is RaphaelsMusik®?

Hardly anything today is as difficult to find as peace of mind.

To escape the constant distraction and bustle that surrounds us, we need an anchor in our lives.

Christian values are representing divine forces that can support us and will help us find our destination in the unity of God.

The Archangel Raphael leads us into God's presence and helps us to free ourselves from worries and troubles. Raphael Music should be there to help walking the path of love with Christ in our hearts.

How is it done?

The first value which is identified and promoted by RaphaelsMusik®, is devotion to God. Raphael means "God heals" . We all want to heal our minds and our bodies. The key to eternal life is love. Jesus Christ is this love. His life and his work shall be to our path and our goal .

The second value which is identified and promoted by Raphael music is meditation. When we focus our thinking mind entirely on the Christ in our hearts, we will experience peace and contentment. The words, that are being sung, will help us to concentrate on keeping our awareness in the heart without holding on to any thought. This will help our mind to find peace in God's presence.

The third value that is to be identified and promoted by RaphaelsMusik®, is awareness. A spiritual man will seek unity in God. A life of love is a life in God. Unfortunately we are constantly separated from love by wrong thinking and acting, which results in concern and sorrow; but by practising divine values like charity, mercy, compassion, forgiveness and selfless service we can stay in it. They will serve us more and more to dwell in God's presence.

The fourth value, which should be identified and promoted by Raphael music, encompasses joy and peace. In surrendering to God lies the power that will illuminate our minds with His presence. The glory of God will be revealed as being everlasting joy and bliss. In common praise and worship, with all the angels and saints, fear and worry, grief and suffering will disappear. The joy of being with God and in God, will make our hearts feel free and happy.

The fifth value that is to be identified and promoted by RaphaelMusik® is love. Searching for the purpose of our lives will lead us into the presence of God. To serve and to worship Him, will give us joy and peace of mind. In sharing with others we will experience His guidance. Through selfless service, we will be freed from material desires and attachments that separate us from His love. He resides in every heart, as well as in yours. Serving God, I will serve my neighbor, thus serving even myself.

The sixth value to be identified and promoted by Raphael music is inspiration .

Hardly anything in our time is longed for more than peace and relaxation. The desire for security and contentment will make us search for the hidden treasure. As someone has found God's strength in his heart, the result will be deep attachment to God and to love.

"... Yet not I , but Christ lives in me" (Gal 2:20).

Christ will lead us through our lives and will led us draw from the source of his wisdom and glory.

The seventh value that should be identified and promoted by Raphael music, is unity in God. As we are eager to live a life of service, we will be able to walk the path of love. God's love is present in all beings. As we are willing to serve God in the whole of His creation, to praise and to worship Him, we will meet our neighbor in mercy, compassion and love. Peace and contentment will shape our lives. The grace of God will unite us in His great love and will raise the Here and Now into being true communion.
