

## **The fire of love**

To start a fire requires knowledge, experience and endurance.  
We will also need paper, some dry wood and a strong spark.

It is similar in spirituality.

The paper is the longing for peace, truth and safety.

These values will cause a man to align himself to the essentials of life. God's nature is the true reality that exists eternally and without change. Everything secular will pass away and therefore will serve man to develop distinctive character.

The dry wood is love.

Love alone can give us the strength, warmth and resistance to experience the inner fire in our lives.

Without a strong spark, however, the fire of love can not be ignited .

This requires of our soul to be connected to God's eternal source of light.

This alone will transmit the spark of joy and bliss to the many, that are searching and loving.

Jesus said :

*" I have come to bring fire on the earth, and how I wish it were already kindled! " (Luke 12:49)*

The spiritual man can only bear the fire of love constantly in his heart, if he is willing to reduce his material desires and to align with all his heart to the love of God and love for his neighbor. Mans effort to dwell in God's presence will give him protection and safety, so that the fire of love will not become extinct..

Jesus said to his disciples :

*"Watch and pray so that you will not fall into temptation". (Mark 14.38 )*

If a man is ready to meet his duty in selfless service to others, then the fire of love will delight and please him with the warmth of God.

Willibald
